

# Jibebe Internship 2022

## Progress report

Name: Paul Moses

# Tasks completed last week

- [#4] Charge Controller Acquiring– The controller was accurately sized and process of acquiring started
- [#5] BLDC Motor Controller Acquiring - The motor was accurately sized and process of acquiring started

# Tasks in this week

- [#4] Research and acquire appropriate charge controller for the charging system
- [#5] Research and acquire appropriate Throttle Switch for the speed control
- [#6] Integrate separate subsystems and test
- [#11] Mechanism for starting Motor
- [#17] Simulation of motor operation

# Timeline

Month	Intern week	Tasks
Jan		
	Week 1	Design of required Battery Pack for Motor and Speed Control
	Week 2	Integration of sub-systems to complete system
	Week 3	Testing of charging system
Feb	Week 4	
	Week 5	
	Week 6	
	Week 7
